Experience:

Full Stack Developer

Sheffield Hallam University Client Project

04/06/2021 - 16/09/2021

- Built a file uploading system workflow.
- Designed and architected the web application to handle intense, data heavy and storage heavy processes, seamlessly.
- Created the Frontend UI using REACT and Tailwind CSS.
- Created the Back End using PostgreSQL.
- Created a restful API to serve data.
- Used typescript.
- Wired the Frontend and Backend together to work simultaneously and confidently with each other.
- Delivered working prototypes throughout development of the project.
- Received and acted upon peer feedback from teachers and clients promptly.
- Incorporated Agile workflow methodologies throughout the development process.
- Worked in conjunction with other team members and clients.
- Assigned and monitored progress of tasks and deliverables.
- Lead the team in regular stand up meetings for both technical discussions and interpersonal development.
- Working on a fixed deadline, managing time, stress and motivation of the team.
- Handled conflict management both between clients and teammates.
- Used good problem solving skills to overcome obstacles throughout the project.
- Clearly communicated with clients and teammates.

- CSS
- HTML
- C#
- JAVA
- REACT
- NEXT JS
- TYPESCRIPT
- TAILWIND CSS
- DESIGN
- API
- SQL
- POSTGRESQL
- FIREBASE
- AUTHENTICATION
- DATABASES

Education

2013-2018

Parkwood E-Act Academy

GCSE's

Passed all with a 6+

2018-2020

Longley Park Sixth Form College

A levels: Maths, physics and Engineering

Maths: A

Physics: A

Engineering: A

2020-present

Sheffield Hallam University

BS Software Engineering

Predicted a 1st

Hobbies:

- Coding
- Gym
- Chess
- Reading
